

Declaration Of Energy Independence DVD

Let the "Other-Guys" get 20 mpg ...
... while you're getting 50 mpg OR MORE...

Fuel-saving technology exists NOW that can save the average American family hundreds of dollars per year! Get your 40 minutes DVD – Declaration Of Energy Independence - today with the information you have been waiting for.

Did you know...

- 80% of the burnable energy in a gallon of gasoline *currently*... goes out the tailpipe!
- Off-the-shelf technology *exists today* that reverses that statistic and therefore gives your car the potential of up to THREE-TIMES BETTER MILEAGE!
- Working models of this revolutionary technology exist TODAY.
- This revolutionary technology converts gasoline into a burnable fuel that results in *less than 5% of the burnable energy* going out the tailpipe.
- After seeing this DVD, you can register to be FIRST-IN-LINE to have access to this technology for your family's car or truck... at a special first-in-line discounted price that virtually ALL American working families can afford!

Don't Wait, Order the DVD packet now.

We are dependent on energy. Energy runs our lives. We don't cook on an open fire. We don't wash our clothes in a river. We don't walk or ride horses for transportation. We use electricity and gasoline to accomplish almost every task before us. We are dependent on energy and thus we are dependent on those who supply us our energy. Gasoline prices have almost doubled in the past few years. Electricity prices have also been dramatically increasing. It's getting to the point where our energy costs are becoming nearly our largest living expense. The definition of dependence is having no other means than those afforded you to accomplish a necessary goal. We would like to introduce an alternative. We would like to offer you a choice. You have the opportunity to declare your energy independence today!

On the forty minute DVD we offer here for sale, you will see technologies that may either supply your energy 100% for free or cut you energy cost significantly. You will learn about how you could possibly never have to pay an electricity bill again for the rest of your life and how a small modification to your existing vehicle could get you up to five times more gas mileage.

This DVD will explore some of the most revolutionary technologies of our time. Watching this DVD could quite possibly be the most productive forty minutes you've every spent!

www.FreePowerDVD.5u.com

First we will explain and demonstrate the technologies that may eliminate your electric bill entirely: the Hummingbird Motor, a magnetic motor that puts out five units of mechanical energy for every one unit of electrical energy input, coupled with the Sundance Generator, the world's most efficient generator.

You will hear our plan to revolutionize energy production in America and how your household can benefit. If you purchase the DVD, you are automatically enrolled to possibly never pay an electric bill again, for life!

The certificate, titled 'Registration For Free Electricity Generator On A Residence' will be sent to you, via mail or email, when you purchase the DVD. If you do not wish to be enrolled, use the form that will be enclosed with your DVD to notify us that you do not wish to be enrolled.

Also featured on the DVD are engine modifications that can give you up to five times your regular gas mileage in your current vehicle.

A new engine modification can burn your fuel more efficiently and actually exhaust less pollution than your current catalytic converter.

Your engine is currently burning your gas inefficiently and the escaping gas is being burned up in your catalytic converter and exhausted to the environment. The engine modification will enable your engine to burn all the gas molecules fully, thus giving you up to five times the gas mileage and the exhaust will be cleaner than ever before.

You can actually purchase an Engine Modification Kit and install it on your vehicle. The material you receive with the DVD will allow you to request a price quote for a customized engine modification kit.

We have used the old, archaic, costly and harmful ways of producing and using energy for too long. It's time to become energy independent! Buy the DVD and make your own declaration of energy independence today!

Special For 1-2-3 Gift For Me Customers

This DVD packet is sold for \$20, plus \$7 for S&H. As a special gift for 1-2-3 Gift For Me customers, the DVD is offered here for only \$10 and with 100% money back guarantee. That's right, if you choose to return the DVD and be refunded for ANY reason, I guarantee you a full refund.

Total payment is \$17 (DVD Packet plus shipping and handling), using paypal.com.

Email address to send money to is mjsspag@bestnetpc.com and the subject is Free Power DVD.
