

Maintain Your Privacy with [PrivatePhone](#)

[PrivatePhone](#) Is An Excellent Fit For Your Online Lifestyle

What is [PrivatePhone](#)?

[PrivatePhone](#) is a NEW phone number, with BETTER privacy features, and a voicemail that gives you MORE CONTROL over your social and professional life. Access your voicemail messages any time, anywhere over the phone or on the web.

Is my [PrivatePhone](#) number really FREE?

Yes, your [PrivatePhone](#) number is free. There is no obligation, no hidden charge. No Catch.

How can I use my [PrivatePhone](#) number?

Use [PrivatePhone](#) whenever you meet interesting people and want to get to know them better while maintaining control of your privacy. Use it on sites such as eBay, Craigslist and Rappleaf. When you want just your friends to hear your funny messages.

[PrivatePhone](#) features include:

- * Stores up to 10,000 voicemails
- * Allows users to post a voicemail message via HTML to any users web page or web profile page
- * Allows users to post a "Glitter telephone" number on their web page, via HTML, as a way of showing people how to contact them

The Embedded Voicemail feature is powerful as users can now leave themselves a voicemail and post that audio on their website as if it were an audio blog.

Use it in MySpace, Friendster and other social networks to enhance your profile.

Use it in an auction or classified listing as your point of contact.

Use it in online dating sites as a mean to screen dates.

Use it to post your won Audio blog.
